
Supporting ...

Thin films for Solar Energy and Catalysis

Advanced Nano-imaging and Nanotechnology

Novel Drug Design and Synthesis

Advanced Protein Analysis, Function, and Physical/ Chemical Structure

Basic Compositional and Structural Analysis of large and small molecules

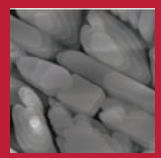
Advanced Systems for Energy Storage

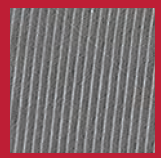
Biological Signaling and Cell Migration

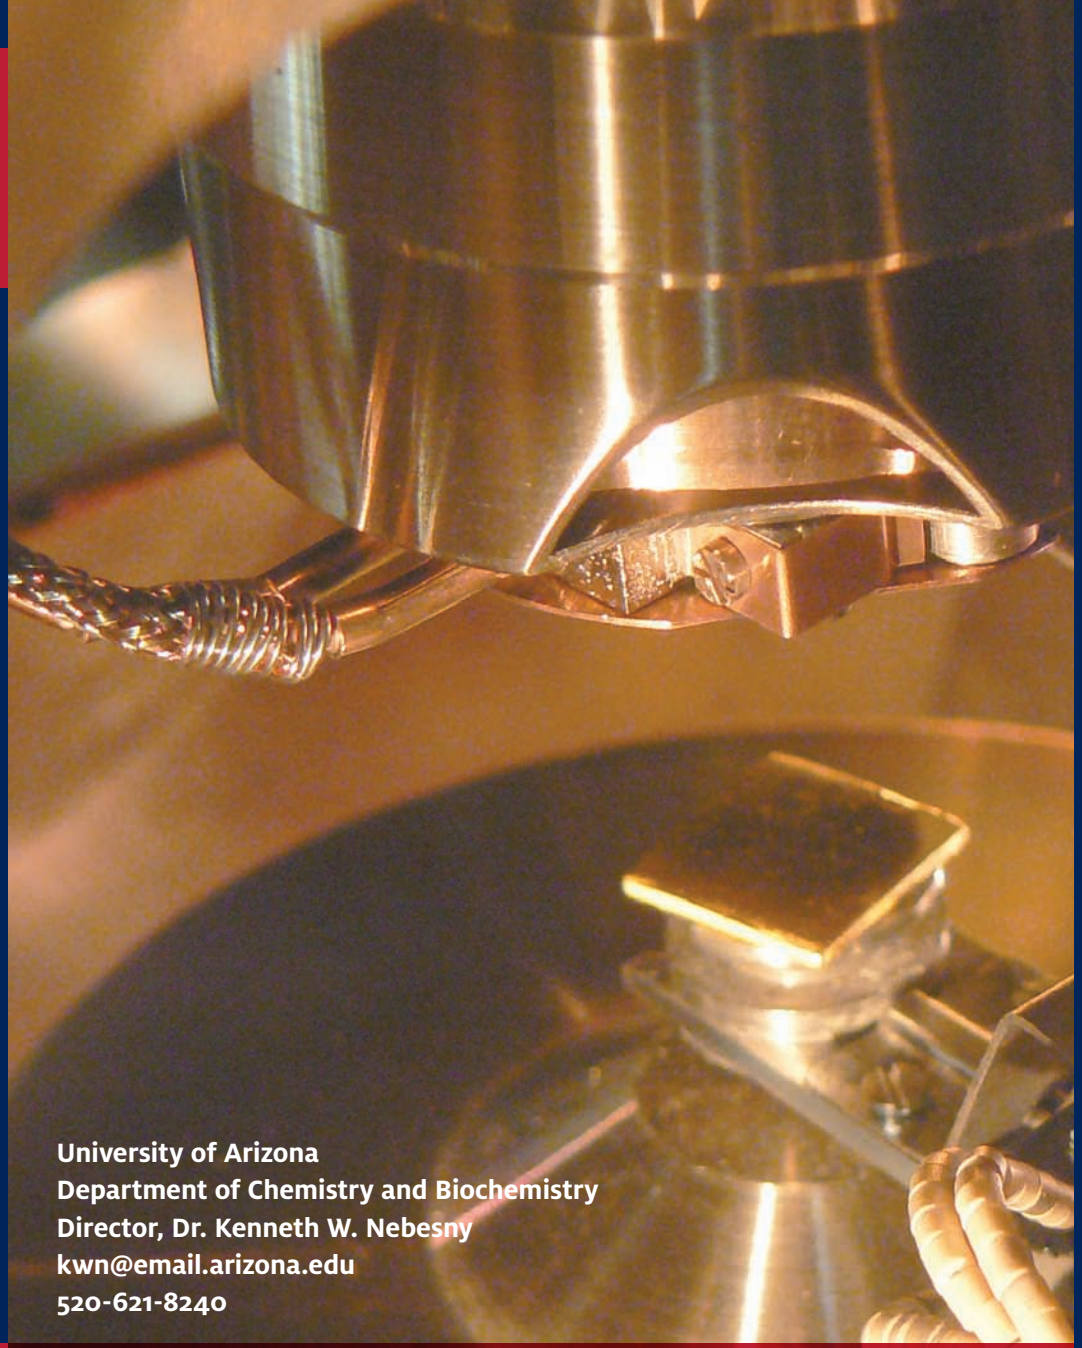
Environmental Analysis and Systems Studies

Chemical and Biochemical Sensors

and more







University of Arizona
Department of Chemistry and Biochemistry
Director, Dr. Kenneth W. Nebesny
kwn@email.arizona.edu
520-621-8240

RESEARCH SUPPORT SERVICES

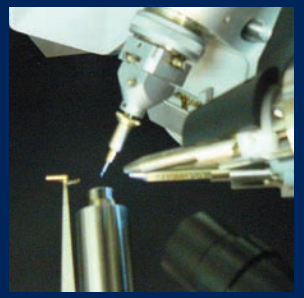
THE UNIVERSITY OF ARIZONA
COLLEGE OF SCIENCE
Chemistry
& Biochemistry

DESIGN

- **CBC Cleanroom Facility**
  Paul Lee
  626-2942 | paull@email.arizona.edu
- **CBC Machine Shop**
  Lee Macomber
  621-2860 | leem1@email.arizona.edu
- **Scientific Glass Blowing**
  Chase Amling
  621-6365 | amling@email.arizona.edu
- **CBC Electronics Shop**
  Dr. Kevin Bao
  621-2830 | kbao@email.arizona.edu

ANALYTICAL SERVICES

- **Mass Spectrometry**
  Dr. Richard "Tom" Solsten
  626-9136 | solsten@email.arizona.edu
- **Nuclear Magnetic Resonance (NMR)**
  Dr. Neil E. Jacobsen
  621-8146 | neil@email.arizona.edu
- **Surface Science/Photoelectron Spectroscopy**
  Dr. Ken Nebesny
  621-8240 | kwn@email.arizona.edu
- **Analytical Biophysics and Small Instruments**
  Dr. Chad K. Park
  626-9388 | ckpark@email.arizona.edu
- **X-Ray Crystallography**
  Dr. Sue Roberts
  621-8171 | suer@email.arizona.edu
- **Nano-Scale Imaging**
  Dr. Brooke Massani
  621-3395 | bbeam@email.arizona.edu
- **Electron Spin Resonance (ESR)**
  Dr. Andrei Astachkine
  621-9968 | andrei@email.arizona.edu



Research support and advanced analysis for the entire university community

Close ties with Tucson's technological businesses community

Innovative custom scientific instrument design and construction capabilities

Expertly staffed in all major areas with award winning research specialists

Unique capabilities for nano-imaging, thin film growth and analysis, electron spin resonance, and clean room technologies

Team approach toward problem solving

Strong support for university educational mission and outreach
